Fraccion MAS cu apelacion urgente pa ricibi resultadonan di investigacion riba Arubahuis

Dialuna ultimo, dia 10 di october, fraccion di MAS, esta parlamentarionan Marisol Lopez-Tromp y Aquanette Gunn a manda un carta na presidente di Parlamento, Edgard Vrolijk pa solicita informacion riba e investigacion di Centrale Accountantsdienst (CAD) riba Arubahuis.

E carta ta bisa lo siguiente:

"Solicitud pa hallazgonan di investigacion di Centrale Accountantsdienst (CAD) riba Arubahuis

Apreciable meneer Vrolijk,

Mediante e carta aki mi ta pidi bo atencion pa lo siguiente:
Prome minister, Sra. Evelyn Wever-Croes a indica varios biaha (durante conferencia di prensa y reunionnan publico) cu CAD tabata investigando posible iregularidadnan den Arubahuis.

Mientras tanto nos a tuma nota di e articulo titula: "Manera premira: Guilfred Besaril a anuncia su retiro como minister Plenipotenciario na Hulanda". Saliendo for di e decision abrupto di Minister Plenipotenciario Sr. Guilfred Besaril, nos kier ricibi e hallazgonan di e rapport aki di inmediato y cortes pero urgentemente ta solicita pe Prome Minister manda esaki na parlamento.

Bo cooperacion den esaki ta altamente aprecia."

No por duna tempo fiho ki dia por informa Parlamento
Na september, prome minister Evelyn Wever-Croes a contesta e pregunta tocante e investigacion cu tabata den proceso den un comunicado di prensa. Prome Minister a enfatisa: "E investigacion ta andando y ta ami mes a pidi e investigacion y ami lo informa Parlamento tambe".

Prome Minister a duna di conoce cu el a haya informacion cu den curso di luna di september, e partinan
di e conseho rond di e investigacion ta keda cla y e ora lo por cuminsa tuma pasonan cu mester tuma. Mientras tanto, Prome Minister a indica cu a trece cambionan tambe inmediatamente na Arubahuis

pa asina por tin e siguridad cu tur cos cu ta sosodiendo ta sosode na forma corecto.

"Mi no por duna un tempo fiho pa ki dia por informa Parlamento. Mi kier ripiti locual mi a yega di bisa mas di un occasion. E no ta prudente pa duna informacion prematuramente pasobra lo por daña e investigacion. Si mi daña e investigacion mi por wordo tilda di un banda bisando cu mi a hacie pa yuda hende y di otro banda bo ta wordo tilda cu bo ta perhudica hende. Den casonan asina bo tin cu laga e investigacion cana su curso, nos a trece cambionan caba cu mester wordo treci pa evita cualkier cos cu por bay malo den futuro".

Y siman pasa, dia 5 di october ultimo, den un comunicado di prensa Partido MEP a reitera e posicion di Wever-Croes.
"Partido MEP a tuma nota cu un biaha mas Parlamentario Marisol Lopez-Tromp no por funciona y sigui haci su trabao mientras cu investigacionnan di Arubahuis no keda cla. Mientras tambe cu varios biaha Prome Minister di nos pais a splik'e cu e investigacionnan na Arubahuis ta biniendo cla y enfatisando cu manera e investigacionnan ta cla, Prome Minister mes lo anuncia esaki."

Tardando demasiado

"Mi ta haya e cos aki hopi erg", Lopez-Tromp a comenta. "Pasobra pa cualkier wissewasje ya caba bo ta haya hende den problema den e dienstnan, wak loke nan a haci cu Liesje na Staten, cu no tabatin niun motibo, anto bo ta haya bo den ful un investigacion. Anto akinan bo tin hendenan di MEP cu ta haci desaster anto tur cos tin cu wordo tapa y scondi pasobra ta su cartera?" el a comenta.

Manera Bon Dia Aruba a reporta na maart di e aña aki, cu griffier di Parlamento, Arminda (Liesje) Khemlani a haya un carta sorpresa di prohibicion pa drenta edificio di Parlamento. Un persona cu tin hopi aña haciendo e trabao aki bao di diferente gobernacion. A inform'e cu e prohibicion di entrada aki ta relaciona cu posibel actonan politico cu el a haci cu ta un conflicto di interes cu su trabaonan como ambtenaar di Griffie di Staten.

Tocante e investigacion na Arubahuis, Lopez-Tromp a comenta: "E ta tardando demasiado, y mi tin e indruk cu CAD lo ta cla. Aworaki ta bezig cu DRH riba e mesun tema. Mientras tanto a cuminsa "reorganisa"... nos niun no a wak ningun advies, [Wever-Croes] si a wak nan. Dus kico ta e proposito?" Segun Lopez-Tromp, ta abnormal cu for di mita juni ta bisando cu rapport ta bin. Anto por ta berdad cu e tema ta delicado, pero tur sorto di investigacion cu ta toca hende ta delicado. "Awor den e caso aki el a hasta sigui cu e candidato riba su lista, tur cos a sigui normal, anto awo cu tin hallazgonan cu ta saliendo for di un ex-partner rabia di coalicion, dicon e keda keto."

Segun Lopez-Tromp, a base di e rapport di CAD, cu ta basa riba hechonan, por bin consecuencianan penal.
"Pero mi ta bet bo cu e ta hink'e bao di cualkier cos pa hustifica loke por a pasa. E ta tardando mucho hopi."
Ademas, e ta haya cu e actitud di prome minister Wever-Croes no ta consistente. "Mi ta wak e con e ta acosa tur hende, purba haya cos riba tur hende, susha tur hende nan nomber. Anto cu ta nan mes, un lugar cu ta cay bao dje, e ta kattig y vinnig y ta ataca cada bes cu toca e tema", Lopez-Tromp a finalisa.

Alexandra van Huffelen: Aruba a pospone reforma di belasting sin informa

Restructuracion di aparato publico ta di un embergadura y lo tin impacto grandi

Aruba ta cumpli bon cu ehecucion di e landspakket, cu excepcion e reformanan riba tereno di belasting. Ademas ta cla pa reorganisa aparato publico, cu ta bay tin un embergadura y impacto grandi, mientras cu maneho laboral y structura social lo tin e base pa reforma na fin di December.

Asina Secretario di Estado Alexandra van Huffelen ta informa Parlamento Hulandes. E Secretario di Estado pa Asuntonan di Reino a bisa cu Conseho di Minister di Reino ta revisa peticionnan pa sosten di likides y con ta cumpli cu e reformanan den e landspakketnan, basa riba e rapportnan di ehecucion cu e Tijdelijke Werkorganisatie, TWO ta compila. Manera ta conoci, e TWO ta haci e trabao anticipando e COHO.

Aruba no a pidi sosten di likides mas pa resto di 2022. Segun College Aruba financieel toezicht, CAft, Aruba no mester di dje, particularmente pasobra di e saldo positivo di 19 miyon florin. E calculacion aki por cambia ainda, na momento cu Aruba bin cu mas informacion. Es mas, CAft ta pendiente e informacion aki. Riba e deficit financiero maximo manera palabra cu Hulanda, CAft lo conseha Gobierno di Reino basa riba informacionnan cu Aruba lo duna.

A dicidi cu Aruba, entrante 2023 lo mester tin presupuesto cu ta cumpli cu e normanan presupuestario palabra cu Hulanda den e protocol di 2018 y e ley supervision financiero Aruba, LAft. Segun Van Huffelen, Gobierno di Reino a conclui cu ya Aruba lo no por apela riba articulo 23 di LAft, esta cu tin circunstancia excepcional pa desvia di e normanan. Esaki a base di e analisis di e Organisacion Mundial di Salud, WHO riba e pandemia di Covid, y e hecho cu a bin un recuperacion fuerte na 2021 y 2022, mientras cu inflacion ta proyecta di baha na 2023. "Den caso cu e recuperacion un biaha mas ta afecta pa otro caso excepcional, Gobierno di Reino lo evalua un biaha mas e peticion pa por desvia di e normanan presupuestario palabra."

Reportahe ehecucion TWO

TWO hunto cu Aruba ta trahando desde comienzo di 2021 pa duna e landspakket su contenido. E landspakket ta e totalidad di reforma cu Hulanda y Aruba a acorda riba nan na fin di 2020. Van Huffelen a presenta Parlamento Hulandes e progreso di implementacion di e reformanan aki.

Y segun TWO, su evaluacion riba e trabao na Aruba en general ta positivo. Locual si ta preocupante ta e capacidad di ehecucion. Pa motibo di esaki ta bin retraso den algun medida, pa por implementa e agenda di ehecucion (di e reformanan). Awor cu mas y mas actividad ta drenta e fase di implemntacion, mester di perseverancia y un guia hopi dirigi pa e proceso. Locual mester di mas atencion na Aruba ta e area di belasting, ya cu a dicidi pa no continua cu e implementacion di e structura nobo pa Januari 1, 2023, esta e BTW.

Aruba a tuma e decision riba su mes, sin ningun deliberacion cu TWO. "Esaki ta rekeri ahustacion politico," Van Huffelen a bisa. "E falta di capacidad pa maneho denter Gobierno di Aruba ta keda un factor di risico pa progreso di e reformanan cu pronto mester keda implementa. Lo pone e necesidad di capacidad specifico riba papel, segun e area di reforma pa asina por busca asistencia den forma concreto.

Mientrastanto a formula e criterionan pa e personanan cu mester dirigi e programanan y ta trahando internamente na Aruba pa permiti capacidad adicional pa e trabaonan cu mester haci riba e tereno di Maneho Financiero, cu ta parti di e landspakket.

Tambe a apunta asina yama kwartiermakers, esta personanan cu mester prepara e proyecto pa e sector di wega di placa, empresaria y clima di inversion. E gasto di salario di e personanan aki ta carga pa Hulanda y Aruba.
A determina e ruta pa Maneho Financiero conforme e planificacion, cu ta duna bista riba tur actividad cu mester tuma luga pa asina logra un maneho financiero duradero. Tambe ta inclui recomendacionnan pa fortifica e organisacion financiero. "Ta trata aki di un trayecto multianual, unda prome mester pone e base na ordo. Cu esaki, no solamente por logra informacion financiero confiabel, tambe lo garantisa e legalidad di entrada y gasto, cu a termino lo mester traduci nan mes den un declaracion di control aproba na momento cu Aruba presenta su cuentanan anual."

Banda di esaki, lo tin otro plan cu mester delinea e pasonan pa un sistematica pa presupuesto, y a tuma pasonan concreto riba e tereno di ley y reglanan financiero y con pa haci e informacion financiero controlabel.

Pa loke ta e tema di Costo y Efectividad di Sector Publico cu ta tema B den e landspakket a tuma pasonan concreto na Juli pa reorganisa e aparato publico. Esaki ta un trayecto grandi pa Aruba mirando e embergadura y impacto, Van Huffelen a bisa. A dicidi como tal pa ehecuta e trayecto cu sosten di un partido independiente. Ya caba tin e documentonan cla pa haci e destaho pa e proyecto aki. Den e siguiente periodo lo coordina e proyecto aki na nivel politico y di maneho pa asina por ehecuta e destaho.

E revision di seis entidadnan publico a cana bon y e rapport final lo keda determina na nivel administrativo fin di 2022, conforme e planificacion. Esaki lo inclui reaccion di maneho pa loke ta e recomendacionnan y implementacion. Entre otro nan lo ta dirigi riba structura y escogencianan strategico di maneho.

A base di e decision di Gobierno pa no implementa e structura nobo di belasting pa 1 di Januari 2023, lo no tin e evaluacion di progreso pa desaroyo continuo di Servicio di Impuesto, SIAD. Banda di esey, "tin preocupacion pa e adelanto di mas desaroyo di SIAD, particularmente riba e tereno di capacidad y si por logra pone e pagonan di belasting na dia. Tambe tin combersacionnan pa sa con necesidad di capacidad por duna contenido na esaki," Van Huffelen a informa Tweede Kamer.

Gobierno di Aruba a aproba e nota Labor y Seguridad y ta forma e base pa un consulta social amplio cu lo mester a haya forma na September. Gremionan di Aruba a participa den e congreso tripartite y e resultado di e consulta lo produci e decision en principio final pa reforma di e maneho di mercado laboral y structura social, cu mester ta cla pa fin di December.

E proceso largo interno di banda di Gobierno di Aruba a conduci cu implementacion di e plan multianual integral pa bringa e fenomeno di tuma trahadonan stranheronan indocumenta den servicio no a bin na vigor ainda. Entretanto a cuminza cu e proceso y lo inicia cu ehecucion di e asina yama 'quick wins' di e plan di implementacion.

Pa loke ta e tema di Salud Publico, manera hopi hende a ripara, e lista positivo nobo di AZV a drenta na vigor. Aruba mester a presenta fin di September, un ruta den concepto con, basa riba recomendacionnan di rapport Hubben, lo implementa reforma pa haci e fondo di AZV sostenibel.

E prijsnan aki ta drenta na vigor e dia di awe unda segun minister Wever a menciona, e desaroyonan internacional a demostra caba cu posiblemente pa e periodo nos dilanti e prijs ta bay subi, bari di petroleo ta na 90 dollar pa cada bari y recientemente OPEP a anuncia cu ta bay reduci e produccion di petroleo cu mas o menos dos miyon di bari di petroleo pa dia loke a causa e aumento di prijsnan pero "pa e periodo venidero, proximo cuater siman e prijsnan ta bay wordo reduci", minister Wever a señala.

Manera a wordo anuncia esaki ta debi na desaroyonan internacional y cu Aruba ta importa tur producto for di afo y p'esey e ta wordo confronta cune.

Biahe pa Surinam

Ademas, el a expresa cu awe e ta saliendo pa Surinam den un biahe di trabou unda lo tuma un conferencia di Nacionnan Uni pa Caribe y Latino America caminda cu den e dos dia di agenda ta bay discuti e establecimento di un fondo di paisnan di Caribe y Latino America pa absorba temanan como por ehemplo, e pandemia di Covid-19, pa asina ey e paisnan den region por bira mas resiliente y prepara mas miho pa un situacionnan externo asina.

"Mayoria di paisnan den region tin e mesun complicacionnan cu nos tin, importando asina hopi producto y wordo confronta cu desaroyonan internacional sin cu por controla esey y pa e motibo ey a dicidi di pone den agenda e tema aki, mi ta considera interesante e biahe aki pa por reuni cu partnertnan di e region pa wak con nos por yega pa establece un fondo asina".

Manera nos sa ora pandemia a dal Aruba y mundo henter por a wak cu akinan no tabatin un sistema pa absorba e tipo di efectonan externo, "30 aña pasa nos no a cuminsa cu un programa di spaar pa ora cu cosnan asina sucede nos ta bon prepara", el a bisa.

Ban yuda Aljereau, un mucha cu ta sufri di autismo pa bay Hulanda

Joanna Croes ta un mama hopi activo riba rednan social cu dia pa dia ta publica videonan y potretnan di su yiu riba e Facebook page "Aljereau's Journey" pa asina conscientisa Aruba su comunidad tocante e condicion di autismo y wak con nan mayornan tin cu lucha cada dia pa nan yiu por tin un miho calidad di bida.

Den un entrevista cu Bon Dia Aruba, Croes a conta cu Aljereau Tromp, ken tin 8 aña di edad, ta un mucha cu a wordo diagnostica cu autismo severo y pa via di e condicion aki nan kier cumpli un meta, bay biba Hulanda pa asina ey Aljereau, hunto cu su mayornan y su ruman muhe Loulou di 10 aña di edad, por bay biba Hulanda pa Aljereau por tin un miho bida ya cu su condicion cada dia ta bira mas dificil pa maneha.

Aljereau su mama a conta cu "e tabata un baby hopi independiente si y awo cu mi sa mas di su condicion te awo mi por realisa cu hopi cosnan cu e tabata haci for di baby tabata door di su condicion".

Despues cu Aljereau a haci su prome aña el a ripara cu el a salta hopi tabu cual e cultura di Aruba ta bisa ta normal door cu e ta mucha homber y mucha homber semper ta floho pa desaroya compara cu mucha muhe y p'esey e como su mama pues no a preocupa mucho, pero poco poco el a cuminsa ripara cosnan cu si a preocup'e "e tabata morde riba tur cos, tur tur tur cos, el a kauw su cama cual tabata di palo, el a kauw e cama full y e tabata 'selfharm' (causa daño na su mes) masha hopi mes door di dal su cabes masha duro mes riba vloer, muraya, glas y tur caminda letterlijk", el a bisa.

Aljereau tabata un baby cu nunca a gatia semper el a move manera un colebra y nunca gatia riba man cu pia, Aljereau tampoco a dal stap poco poco djis riba un bon dia el a lanta para y core.

Ademas e ta splica cu Aljereau nunca a papia, semper e tabata señala na loke e kier of haci zonido pa haya atencion y asina poco poco nan a forma un manera pa purba comunica "pero mas cu claro mas grandi e bira, mas frustrante e tabata bira pe y claro pa nos tambe".

Poco poco Aljereau a cuminsa bira mas inkieto lo cual p'e como mama tabata mustra normal "te na e momento cu un dokter a duna mi e comentario 'is hij altijd zo'? (semper e ta asina?) eynan ta caminda cu mi a cuminsa Google y busca informacion di kico por ta pasando cu mi yiu", el a expresa.

Na e momento cu nan a haya e diagnostico di Aljereau, nan a hay'e riba un pida papel cu a wordo duna na nan y "pa mi ta sincero cu bo e diagnostico a trece mas pregunta cu el a trece contesta y aunke nos tabata sa caba den ki direccion su diagnostico lo tabata bayendo e momento cu nos a scucha e diagnostico oficial nos a yora y di berdad nos a sinti cu nos mundo a bin abou y no tanto pa e hecho cu autismo lo tabata algo malo

sino mas bien pa e falta di ayudo, informacion y instancianan cu ta brinda ayudo completo pa muchanan cu e condicion aki" el a señala.

E sentimento cu nan como mayornan tabata tin e prome lunanan despues di Aljereau su diagnostico tabata algo cu nan no lo desea na ningun hende "p'esey mi a haci'e mi mision pa conscientisa tur hende eyfo, kico un famia cu tin un yiu cu e condicion aki ta biba cune, mi ta purba na duna tur e perspectivanan posibel dus di mi como mama, di mi yiu muhe como su ruman y tambe di su tata. Mi kier a conscientisa doñonan di trabou, hendenan den tur establecimento ora bo ta bay haci compras of loke sea y bo encontra cu algo asina pa nan sa di no husga pero acerca, puntra, duna sosten y no duna comentarionan doloroso ni miradanan di desprecio cual nos ta lidia cune te ainda, a mi cu mi pareha a medio haya e cuero duro caba pa esey pero mi yiu muhe ainda no y eseynan ta haci'e hopi dolor" el a conta.

Aworaki, Croes a informa cu nan ta bendiendo un rifa pa por hiba Aljereau Hulanda, di esaki, el a menciona cu e decision no tabata un decision facil pero nan ta haya cu ta super necesario.

"Actualmente mi ta purba di haci hopi mi so pero mi tin tur dos mi mannan den brace cual no ta haci'e hopi facil paso mi ta haya hopi hopi dolor pero mi ta haciendo mi best pa logra mas cu mi por y mi ta acerca tur lector pa acerca nos y cumpra e rifa y yuda nos duna Aljereau un miho futuro aya na Hulanda"

Te ainda Aljereau no ta papia, e tin hopi problemanan sensorial, e no ta consciente di loke ta rond di dje, su tolerancia di dolor ta hopi halto e cual por crea problema grandi pa su salud, e no tin miedo di nada y ainda e ta 'selfharm' masha hopi mes, "Aljereau ta morde su mes, e ta dal, kinipi y rasca su mes hopi mes y claro ora mami purba stop e di haci'e mami tambe ta haya"

Como famia, esaki a afecta nan inmensamente hopi, el a haya dos burnout basta pisa pa e cual ainda e ta riba medicamento pa esey, como pareha tambe e situacion a pone un presion extra riba nan tanto financieramente, emocionalmente, mentalmente "y claro nos relacion a bay atras masha hopi mes pero semper tabata tin algo cu a pone nos yega bek na otro y awo door di hopi terapia nos por a compronde cu hopi biaha nos pleitonan tabata door di tur e presion extra cu nos tin pero poco poco nos por mira past esey awo", Croes a bisa.

Pero loke ta preocupa nan mas ta nan yiu muhe grandi, "e cual ta stima Aljereau masha masha hopi mes, e ta echt cuid'e, preocupa p'e, yud'e, siñ'e y e ta su advocate di mas grandi pero e ta keda un mucha tambe y Aljereau su condicion ta haci'e dolor y e ta sufri hopi pa esaki, e ta wak e miradanan di hende den supermercado, e ta haya comentario di otro muchanan, tin rato e ta sinti cu nos ta duna su ruman mas atencion, mas privilegio y esey ta haci cu hopi biaha e ta cuestiona si nos ta stim'e y claro e ta exigi tur atencion di mundo"

Hulanda ta un idea cu nan tabata lucha cune for di hopi tempo caba pero nan tabata pensa cu e no ta husto cu nan mester laga nan luga pa haya ayudo pa nan yiu y na mas cu un ocasion nan a sinta cu diferente hende pa por haya e ayudo cu nan mester, "pero semper tur cos a keda na promesa y nada mas, dus nos ta sinti cu nos no por sigui sacrifica nos yiunan a base di esey.

E ta considera cu Hulanda lo brinda tur e ayudonan cu nan mester no solamente pa Aljereau sino pa nan tur, door di sondeonan cu el a haci pa por a saca afo cu berdad ta importante pa atende e persona cu e condicion pero "e ta hopi importante tambe pa atende cu tur hende cu ta rond di e persona ey tambe, e famia direct ta haya hopi ayudo cu terapia, cu cuido pa esun cu e condicion pa asina por tin atencion y tempo pa e resto di famia tambe".

Croes su mensahe mas importante ta cu e lo kier laga sa pa ta mas consciente ora hende ta riba caya y ta wak un situacion caminda un mucha ta grita, sapatia, dal of yora "no semper asumi cu e ta mala mucha of e ta na su kier, purba wak rond di dje, mustra empatia, brinda un ayudo y si bo no por yuda ta ok djis no husga, no duna comentarionan doloroso of miradanan di desprecio paso kisas mami y papi no a wak pero e otro chikito na banda si a tuma nota di bo comportacion y ta haci'e dolor" Croes a finalisa.
Pa por cumpra e rifa por tuma contacto cu Joanna Croes na e telefon 565.5160, e ticket tin un costo abao, cu cual por gana diferente premio como un Weekstay na Merca of un dinner pa 2 persona.

Minister Rocco Tjon:

A firma oficialmente e MOU hunto cu tur centro di bario pa proyecto di veilige barios

Dialuna anochi, durante un momento sumamente importante, Minister di Husticia y Asuntonan Social Sr. Rocco Tjon hunto cu coleganan Minister President Sra.

Evelyn Wever-Croes, Minister di Enseñansa y Deporte Sr. Endy Croes y Minister di Transporte, Integridad, Naturalesa y Cuido di Grandinan Sr. Ursell Arends, como tambe CEDE Aruba y e directiva di tur e Centronan di Bario a firma e "Memorandum of Understanding" (MOU) pa asina realisa e ehecucion di e proyecto di Veilige Barios.

Manera ta conoci algun tempo atras, Gobierno di Aruba a aloca fondonan adicional, na un forma structural, pa e proyecto di Veilige Barios por inicia. CEDE Aruba ta un partner strategico pa Gobierno di Aruba den e ehecucion di esaki, mirando cu e meta principal di CEDE Aruba ta pa trece recursonan hunto y percura pa desaroyo sostenibel.

E Centronan di Bario tambe ta un partner crucial, mirando cu e proyecto aki ta bay nifica e ampliacion di actividadnan den e barionan, pa di e forma ey crea mas oportunidad tambe pa tur e ciudadanonan den e diferente barionan di Aruba. Pa e motibo aki Ministerio di Husticia y Asuntonan Social a acerca tur e Centronan di Bario pa forma parti di e proyecto aki. Simplemente aloca fondo adicional no lo soluciona e problema cu tin actual, y e ta hopi importante pa atende cu e diferente retonan cu e Centronan di Bario tin actualmente.

Bisando esaki, a base di e MOU cu a wordo firma, lo percura pa bin cu mas capacidad pa e staff di e Centronan di Bario, pero tambe lo evalua regularmente e necesidadnan den e barionan a traves di e Centronan di Bario. Venezuela: Flexibilizacion di sancion birando improbable

(LaPatilla) – Expectativa cu a crea na Venezuela encuanto un posible flexibilizacion di e sancionnan di Merca a traves di OFAC, cu lo a permiti otorga licencia pa un reinicio di e relacion di empresa petrolero Chevron cu gobierno Venezolano, no a keda cumpli. E economista ta splica cu e comentario entorno di Chevron a bin despues cu The Wall Street Journal a informa cu Merca tabata preparando pa permiti cu e empresa petrolero Venezolano di joint venture Chevron/Pdvsa lo por cuminza opera atrobe, habriendo caminda pa un posible reapertura di e mercado Mericano y Europeo pa petroleo di Venezuela.

"Pero produccion petrolero Venezolano no ta lanta, a pesar cu na Miraflores ta bisa cu "nos ta cla pa suministra petroleo na Merca, Union Europeo y Asia"; y no lo tin disponibilidad di bende ni un solo bari na ningun hende, mientras cu industria petrolero Venezolano no tin e capacidad di produccion no utiliza o cera," Quiroz ta expone.

Quiroz a indica cu "loke ta produci (680.000 bpd) ya ta comprometi, mediante contratonan firme, cu cliente tradicional, y cu insuficiente suministro na mercado interno. Gobierno mester convence su mes ainda cu Venezuela ya no ta clave o fundamental pa mercado petrolero."

Despues gobierno di Biden a desmenti e version di The Wall Street Journal, insistiendo cu cambio di e restriccionnan di OFAC ta depende di un cambio politico di gobierno Venezolano, garantizando finalmente realizacion di eleccion liber na e pais. Riba e tereno ey no tin avance ainda.

“‘Esaki ta demasiado pa personanan cu ta den problema financiero’ ta loke nos ta tende for di e muhenan na estado. E ta causa hopi stress, specialmente pa hende muhenan cu ta en situacionnan vulnerabel. Y esaki ta precisamente e personanan cu ta beneficia mas di e cuido aki,” Bakker a bisa.

Joke Klinkert, director di KNOV, a trece dilanti e preocupacionnan. “Pa añanan largo, nos a mira e famianan vulnerabel considera e contribucion personal como un

barera pa cuido di maternidad. Claramente, cu tur e costonan cu ta keda aumenta e ta pone presion riba hende, esaki ta cuminsa pone mas presion riba nan ainda. Como resultado, personanan cu ta mas vulnerabel no ta ricibi e cuido aki, y e ta necesario.”

Den juni, KNOV, Dutch Patient Federation y e asociacion di ginecologonan NVOG a manda un carta na parlamento pidiendo pa descarta e contribucion personal pa cuido di maternidad. 450 euro pa e nacemento y mas di 202 euro pa e cuido di maternidad.
“No tin contribucion personal pa cuido necesario,” KNOV a bisa. “Y cuido di maternidad ta un cuido absolutamente necesario.”

Tweede Kamer, parti di parlamento Hulandes te ainda no a responde na esaki.

Partido MEP a reconfirma liderazgo di Evelyn Wever-Croes

Den reunion di Conseho di Partido di MEP dialuna ultimo, unanimamente a reconfirma e liderazgo di lider di partido y lo presenta esaki na e proximo Congreso di Partido.

Na aña 2011, despues cu Nel Oduber a dicidi di bandona politica, partido MEP a tene un eleccion pa lider, y Congreso 2011 a eligi Evelyn Wever-Croes como Lider di MEP.
Na aña 2015 a re-eligi Evelyn Wever-Croes durante e Congreso 2015.

Despues di un tardansa ocasiona pa e pandemia di Covid-19, Partido MEP lo propone na su Congreso un biaha mas pa re- eligi Evelyn Wever-Croes como Lider di MEP pa e siguiente 4 añanan.

Conseho di Partido a demostra confiansa den su Lider, cu aparte di ta e prome Prome Minister femenino di pais Aruba, tambe ta e votegetter di e ultimo eleccion.
Partido MEP ta sumamente orguyoso di su Lider cu a demostra cu e por a lidera partido y pais den bon tempo y den tempo dificil.

Congreso 2022 lo tuma luga dia 30 di oktober 2022 durante un actividad na Cede di MEP.

Ricardo Croes (ReD Democratico)

BBO e pilar economico nobo pa Gabinete Wever-Croes II

E no ta asombra nos mas ora nos ta tuma nota con Minister President mr. Evelyne Wever-Croes ta tuma pueblo haci. No solamente esnan cu no a vota p'e sino abo tambe cu cada biaha ta buta bo confianza den partidonan tradicional MEP y AVP.

Diamars dia 4 di october pasa gobierno ta declara via entre otro su pagina di Facebook cu Bureau Integriteit Aruba ta bay introduci "vertrouwenspersoon integriteit " y "interne onderzoeker". Den e articulo gobierno corectamente ta ilustra cu integridad ta sumamente importante pa bienestar di nos pais y comunidad. Eynan mi ta dun'e tur rason. Ta asina si cu si no ta pa Partido ReD Democratico, cu desde su prome entrada den Parlamento na 2005 no solamente ta papia di integridad sino ta mustr'e tambe den accion, awe no lo ta papiando mes di un Bureau Integriteit.

Dr. Armando "Rudy" Lampe a hasta sali ariba portada di un media cu su dicho: Integridad bo tine of bo no tine. Minister president actual a haya e slogan asina bon cu e la dicidi di us'e pa su mes. Den prome programa electoral di ReD na 2005 a propone bin cu un Bureau Integriteit, y p'esey den programa di gobernacion di 2017 a copia literalmente tur loke ReD a scirbi tocante integridad y ta p'esey a bin Bureau Integriteit.

E pregunta ta cu si tin tanto integridad na pecho dicon no a bisa nada cu ex minister O. Oduber tabata bao investigacion? Dicon ta te awo ta papia di investigacion haci ariba ex minister Marisol? Que hubo di vacuna-gate y tur e otro gatenan cu tin demasiado pa menciona? Mi a yega di declara den Parlamento cu prome cu mi a drenta den Parlamento mi tabata conoce e wega di polis cu ladron pero cu eyden mi a ripara cu nan ta hunga ladron cu ladron. Nan ta horta y masacra e pueblo y e pueblo ta bolbe buta nan na poder, increible, tristo y berdad.

MP tin palabra masha bunita y asina ta convence un cantidad di hende cu ta scoge pa no wak e gañamento sin fin y falta di vision pa hiba e pais aki dilanti. Ora cu ReD a propone legalisacion di cannabis como pilar economico nobo y a mustra cu cifras un total di afl. 500.000.000,00 y cu esaki ta realistico, MP a haya masha oportuno pa laga haci declaracionnan den Parlamento bao di encargo di minister di Economia mr. Xiomara Maduro gañando tur hende cu legalisacion di cannabis medicinal lo bira Aruba su di dos pilar economico nobo. Esaki e la haci den tratamento di presupuesto na december 2018 den Parlamento di Aruba.

Asina aki tambe a tene ReD na liña pa cu legalisacion despues cu señora D. Lejuez a bandona fraccion di MEP. Esaki tabata e momento cu de facto ReD a haya un yabi di gobernacion y no prome (manera hopi hende ta pretende). ReD a purba den e corto periodo cu a wordo acompaña pa un pandemia pa mira si e por logra haya su partnernan den coalicion MEP cu POR pa cumpli cu e acuerdo di gobernacion firma entre e tres lider.

Strategicamente a tene ReD na liña pero na final e berdad a sali na cla. Awe ni papia ta papia di cannabis pero ta scoge pa bai saca e mesun afl. 500.000.000,00 na b.b.o. for di saco di pueblo perhudicando tur hende incluyendo comerciantenan y nos economia en general. Esaki ta e pilar economico di MEP/RAIZ. MEP mester a caba cu ReD cueste lo que cueste y a keda sin legalisa masacrando e pueblo por completo pasobra awo ta cu b.b.o. nan ta bay saca e mesun afl. 500.000.000,00 for di bo saco pa yuda nan maneho deficiente y sin vision.

MP a prefera di sacrifica e pueblo di Aruba djis p acaba cu un partido di 1 asiento, dicon? Awe tur prueba ta tur caminda pa esnan cu kier realisa cu ta esaki a tuma lugar. Poco ta esnan cu e grandesa te awo pa a acerca nos y admiti cu nan a cay den trampa di kere cu ta ReD a faya.

Pa un pais tin oportunidad di sobresali y para stabiel financieramente y den su compromisonan internacional e ta indispensable pa su pueblo ta critico, educa y husto. Cada 4 aña pueblo ta haya e oportunidad pa dicidi e rumbo di su pais. Cuater aña riba su mes no ta hopi pero si e ta suficiente pa haci bon of comete un daño cu por tuma generacionnan pa recupera di dje.
Bo voto ta un arma poderoso, us'e bon, us'e sabi y consciente.

Fundacion Pro Persona cu Dislexia a haci bishita di cortesia na Minister di Deporte y Enseñansa Endy Croes

Den cuadro di siman di consicentisacion di Dislexia

Siman pasa den cuadro di e siman di conscientisacion di Dislexia, Fundacion Pro Persona cu Dislexia a haci un bishita di cortesia na Minister Endy Croes. Presente na e reunion aki tabata Sra. Eveline Arends cu ta Presidente di e fundacion, Sra. Roraima Dubero, secretario y Sra. Ivy Goeloe cu ta bestuurslid.

E fundacion aki a lanta na aña februari di aña 2013,cu e meta pa yuda personanan cu mester di esaki. Kico ta Dislexia? Esaki ta un trastorno den celebro cu ta haci dificil pa siña lesa y skirbi cu precision y fluidez. Esaki ta un condicion pa bida largo, muchanan no ta supera Dislexia pero cu e apoyo adecua, e habilidad nan clave por wordo mehora.

Hopi persona exitoso tin Dislexia y investigadornan continuamente ta studiando dislexia pa mas di un siglo. Mester agrega cu Minister Endy Croes a scucha cu hopi atencion tur e puntonan treci dilanti pa e fundacion Pro Persona cu Dislexia, y sigur lo sondea tur posibilidadnan cu ta existi pa mas sosten y colaboracion di parti Gobierno pa di e forma aki por yuda trece tur informacion y ayudo pa personanan cu Dislexia mas cerca di e comunidad.

Minsiter Endy Croes a gradici Fundacion Pro Persona cu Dislexia pa e bishita aki.

E decreto ta riba mesa

Gobierno atrobe no a logra pasa e prueba pa locual ta pasa e presupuesto 2023. Gobierno a traha un presupuesto di fantasia y no por motiva for di unda a saca e cifranan. Nos por a tende un minister bisa cu no tin placa pa Arubus mucho menos pa malgasta. Nos por tende tambe cu tin 15 bus cu ta para un par di aña caba sin uso. Asina nos por sigui menciona. E gobierno aki mes a hinca su mes den un callejon sin salida.

Despues di 5 aña den gobierno nan no culpa pasado paso ta nan mes a scoge e caminda aki. Un partido cu a priminti cielo riba tera, pero locual cu nan a realisa ta miseria pa nos pueblo. Un partido cu a logra drenta gobierno no pa su programa di campaña sino pa troce berdad y a hiba un campaña di mentira. Gañamento tambe ta pica. Satanas ta e tata di mentira. Mientras pueblo ta sufri nan ta sigui hiba un bida di luho y fiesta. Si nos mira paisnan comunista esaki ta locual nos ta bibando awe den 2022.

Ora nos tende e palabra “defund the polis” nos por saca nos conclusion. Esaki ta e modus operandi di paisnan comunista. Economisa riba seguridad ta trece seguridad di nos pueblo na peliger. Nos por a tende cu CAFT ta pone enfasis pa baha gasto riba overtime. Si den e ultimo 10 añanan como 5 biaha no a zorg pa tin opleiding pa polis ta con lo bo kier baha overtime. Esaki no ta solamente nos cuerpo policial paso tin mas departamento no a haya sanger nobo den e departamentonan. Awe nos por mira cu servicionan a bay atras. Nos por corda tempo cu a stop e opleidingnan pa maestro di scol. Aparentemente nos no ta siña di nos erornan.

E luna aki ta crucial pa e gabinete aki paso e conseho di CAFT ta pa duna ministerraad di Aruba su regalo esta su KB. Un gobierno cu ta pone cara di henter pueblo di Aruba na berguensa door di no sa con pa goberna nos isla. Riba dje kier pa Hulanda exonera su debe pero ta firma protocol for di 2018 y te dia di awe no ta cumpli. E dianan nos dilanti nos lo mira si Hulanda lo duna gobierno su regalo of nan lo busca cualkier excuus pa benta gobierno abao. No ta un secreto cu interno nan tin hopi problema. Nan por busca moda di tapa solo cu un debe pero e realidad ta conoci.

Nos di partido Curpa ta mira cu si bin un eleccion dentro di 3 luna despues di caida di gobierno lo bay tin un cambio grandi. Nos por mira cu despues di ultimo eleccionnan pueblo no a vota mas pa partidonan grandi. Na aña 2013 7038 votador no a vota pa partidonan grandi, na 2017 ela subi na 12.928 y na 2021 ela bolbe subi na 19.575. Nos por a mira tambe cu union di partidonan no a duna resultado desea. E union riba lista di partido POR a demostra na 2017 con nan a bay atras considerablemente den voto. Nos ta kere cu den e proximo eleccion votadornan lo no scoge pa partidonan grandi. Nos ta premira cu mas di 26 mil votador si no ta mas lo no vota pa partidonan grandi.
Aruba ta un isla chikito

lo no mester di over na e sistema electronico pa vota. A keda demostra cu e sistema electronico ta facil pa hack. Venezuela ta conoci pa e sistema aki con coriente ta bay y ora e bin back e resultado di eleccion ta wordo cambia. Mesun cos a pasa na Merca cu di anochi pa mainta e resultado a cambia. A detene e CEO di Konnech Eugene Yu pa via di fraude den eleccion. Alaska a dicidi cu lo no usa computer mas pa votamento sino e lo bay manual. E ultimo cu nos a mira sosode ta na Brazil caminda den 15 minuut cu coriente a bay e partido comunista a subi cu 2 miyon voto. Nos isla lo prospera ora cu caba cu inhusticia. Esaki lo pasa ora e husto cu tin temor di Dios ta gob

Cas di famianan Boneriano no tin resiliencia pa cambio di clima – accion ta altamente necesario

Na luna di mei ultimo Dutch Caribbean Nature Alliance (DCNA)'s su stagiaire di investigacion Nina Zander a haci un yamada via medionan social pa yena un cuestionario. E encuesta aki tabata parti di su investigacion pa haya sa con resiliente cas di famianan Boneriano ta relaciona cu debilidadnan causa pa cambio di clima.

Un gradicimento ta bay na tur persona cu a yena e lista di encuesta. Mientras tanto su investigacion a termina. E resultadonan di e investigacion aki ta sugeri cu tin hopi barera ainda cu ta stroba cu cas di famianan Boneriano ta alcansa resiliencia pa cambio di clima. Ta necesario pa tuma accion pa halsa e resiliencia aki.

Cambio di clima y debilidadnan

Keintamento di mundo ta causa cambio den clima. E cambionan aki ta trece cu nan menasanan (debilidadnan) di clima. Por premira cu esakinan ta bay presenta mas frecuentemente of mas intensivamente den futuro. Ehempel di e menasanan aki na Boneiro ta tormenta tropical, horcan, inundacion y secura

Esakinan por destrui naturalesa di Boneiro, manera su coralnan y mondinan di palo di mangel. Tambe nan por causa daño na ciudadanonan di Boneiro. Por ehempel, nan por causa lesion of malesa y nan por destrui infrastructura vital y edificio. Tambe nan por causa daño na e economia y baha e entrada di cas di famianan. Islanan chikito - manera Boneiro y e otro islanan di Caribe Hulandes - ta core principalmente riesgo. Tambe ta spera cu e islanan aki lo sinti mas efecto di e impactonan di cambio di clima. Pa e motibo ey, ta importante cu e islanan aki y nan cas di famianan ta resiliente pa e menasanan di cambio di clima.

Investigacion y resultado

Esaki ta e motibo dicon Nina Zander, kende ta e stagiaire di investigacion di DCNA y studiante di Master di Ciencia na Universidad di Utrecht, a investiga con e resiliencia di e cas di famianan Boneriano ta pa confronta debilidadnan causa pa cambio di clima. E resultadonan di su investigacion ta sugeri cu ainda tin bastante barera prome cu e cas di famianan alcansa suficiente calidad di resiliencia. Por ehempel hopi cas di famia no ta sigura contra daño causa pa e debilidadnan di cambio di clima aki. Ni tampoco nan no tin suficiente cen di spaar pa por cubri daño similar.

Ademas, cas di famianan no ta na altura con cambio di clima por haci impacto riba nan ni con nan por prepara pa esaki. Pobresa tambe ta un otro barera. Ademas e resultadonan di e investigacion aki ta sugeri cu algun sorto di cas di famia, manera cas di famianan grandi y cas di famianan cu tin un grado abou di educacion, promedio tin chens di ta menos resiliente.

Kico awor?

Pues accion pa halsa e resiliencia pa clima ta altamente necesario. Institutonan manera gobierno por inicia e tipo di accionnan aki. Por ehempel, nan por crea un plan di accion. Proteccion y recuperacion di naturalesa di Boneiro lo mester ta parti di esaki. DCNA ta duna recomendacionnan pa esaki den nan 'Plan di accion pa clima pa Caribe Hulandes'.

Abo mes tambe por tuma medida, manera sea sigur cu bo polisa di seguro ta cubri cambio di clima y tuma bon nota di foyetonan di Entidad Publico Bonaire (OLB) tocante combatimento di desaster. Ademas sea sigur di ta bon na altura di e informacion tocante impacto di cambio di clima door di abona riba e boletin di noticia digital gratis Bionews y door di tira bista riba DCNA su canalnan di medionan social.

Bo ta interesa den mas informacion?

Bo ta interesa den mas informacion tocante e investigacion aki? Bo por haya Nina su tesis y e rapport pa comunicacion tocante esaki riba Dutch Caribbean Biodiversity Database. Pa pregunta por tuma contacto cu Nina tambe via nina.p.zander@gmail.com.

A anuncia e nombramento den e dossier di biahe di Silvania, kende tabata presente na e promocion. Rekwest no ta e prome specialista di impuesto cu un PhD di descendencia Curasoleño. E honor ey ta keda na Edsel Rosenda, kende a gradua cum laude for di universidad di Groningen.

Investigacion di Rekwest tabata enfoca riba e politica di tratado di impuesto di Corsou for di un perspectiva internacional. Su investigacion no tabata enfoca riba recomendacionnan riba aspectonan tecnico di un politica di tratado di impuesto of un tratado modelo, sino e meta tabata pa delinea e condicionnan pa construi un red di tratado di impuesto.

Rekwest a investiga e obstaculonan pa Corsou pa conclui y ratifica tratadonan di impuesto a base di investigacion di literatura y investigacion calitativo y cuantitativo.
Di otro banda el a investiga ki consideracionnan ta importante pa Corsou pa construi un red ti tratado di impuesto.

E resultado di su investigacion ta un marco di evaluacion cu por sirbi como guia pa Corsou na momento di diseña un politica di tratado di impuesto of ahusta un po-

Belastingdienst no por controla ki informacion empleadonan corupto ta busca den sistema

(NLTimes) - Investigacionnan di corupcion na Belastingdienst ta stroba pa e hecho cu e oficina no por mira e empleadonan su buskedanan den e sistema. E sistema di computer di e agencia no ta registra ki informacion e empleadonan ta busca, NRC a reporta.

Empleadonan di Belastingdienst tin acceso na cantidad grandi di ciudadano su data y data di e compania, incluyendo adres, plachi di auto y nan informacion financiero. Sinembargo, si e empleado pasa e datonan aki na e criminalnan, e ta casi imposibel pa Belastingdienst por comproba esaki segun e corant. Belastingdienst ta haci uso di mas o menos 900 diferente sistema den nan computer. Mayoria di nan no ta conecta na otro, y hopi biaha no ta warda e data di e buskedanan cu ser haci den nan.

Den su respuesta, Belastingdienst a confirma cu e ta dificil pa mira tur e empleadonan su accion. Si ta necesario, "bon investigacion" por demostra cua informacion e empleado sospechoso tabatin acceso na dje, e vocero a bisa.

Segun NRC, e problema aki a bini dilanti durante un investigacion cu a ser haci pa cu un empleado aresta na Amsterdam. Public Prosecution Service (OM) ta sospecha cu e empleado a bende dato na e gang criminal cu aparentemente ta relaciona cu Ridouan Taghi. Cuerpo policial a haya 920,000 euro na su cas den cash.

E investigadornan a purba determina con e empleado a genera e ganashi aki y si el a bini door di bende dato di ciudadano na e criminalnan, sinembargo esaki a resulta algo imposibel pa motibo cu e dato no ta disponibel.

Belastingdienst tin mas o menos 25,000 persona den empleo di cual 10,000 tin acceso na e ciudadanonan y companianan su dato. Criminalnan por usa e data aki pa haya e adres di nan rival, of yega na e doño di un auto specifico por ehempel.

Ora cu autoridadnan a preveni Riduoan Taghi su intento di scapa for di e prizon, cuerpo policial tambe a sospecha cu un empleado tabata involucra. A sospecha cu e empleado a busca e adres di 4 guardia di siguridad na e prizon, sinembargo ta imposibel comproba e acusacion contra e empleado, pa motibo cu e dato di su buskeda no ta disponibel, NRC a reporta.

Critica fuerte tocante manera cu a trata acusacionnan contra parlamentario Gijs van Dijk

(NLTimes) - Expertonan ta hopi critico di e investigacion tocante supuesto comportamento transgresivo di parlamentario di partido PvdA Gijs van Dijk. Nan ta yama e investigacion "slordig" y "sin cautela" ademas di ta sorprendi cu e partido di labor a genera conclusionnan asina drastico di e reportahe, EenVandaag a reporta.

Gijs van Dijk a resigna como parlamentario di partido PvdA dia 8 di februari e aña aki despues di acusacionnan di comportamento transgresivo. PvdA a pidi oficina di integridad Bezemer & Schubad pa investiga esaki. Nan a publica nan reportahe den juni. President di PvdA Esther-Mirjam Sent a yama e resultadonan "serio" y a bisa cu "ta indeseabel pa Gijs mantene su posicion representando e partido durante e siguiente 4 aña."

Sinembargo segun Marjan Olfers, profesor di ley y Rob van Eijbergen, profesor di integridad di organisacionnan, e investigacion tabata completamente subhetivo. Segun na, Bezemer & Schubad a enfoca demasiado riba e sentimentonan di e personanan cu a acusa Van Dijk y hopi tiki riba e hechonan. E investigacion tabatin fayo, e conclusion no tabata cla y e manera cu nan a conduci esaki no ta cla tampoco segun e profesor a conta EenVandaag.

E conclusion di Bezemer & Schubad su reportahe ta bisa cu "tambe e ta posibel cu e reporteronan ta sinti cu nan a ser trata di manera inapropia y di manera transgresivo." Manera a ser bisa riba e partido su sitio web, PvdA a tuma esaki na e extremo bisando "E investigacion a demostra cu Van Dijk a comete comportamento transgresivo na varios persona."

Van Eijbergen a yama esaki sorprendente. "E partido ta bisa riba nan sitio web cu Gijs van Dijk a comete comportamento transgresivo, cual mi no ta di acuerdo cune pa motibo cu e ta basa riba conclusionnan debil di e investigacion."

PvdA a conta EenVandaag cu e conclusion tocante Van Dijk por ser saca for di e reportahe. Bezemer & Schubad no a responde na e programa su preguntanan pa cu e investigacion aki.

Exposicion Beyond Words

Talento scondi di Stanga

Fundacion Arte Pro Arte ta presenta e Expo Beyond Words di Stanley 'Stanga' Heinze dia 15 di October pa 8or na Galeria di UNOCA na Stadionweg 21. E expo aki lo ta durante un luna den e Galeria di UNOCA.

10 ana pasa Stanley Heinze como un amante fervor di arte a cuminsa dedica su mes na fotografia despues di a atende un curso di fotografia organisa pa Ateliers. Despues di esaki ela sigui profundisa su mes cu hopi entusiasmo riba e tereno di digital art.

For di tempo cu e tabata adolescente e tabata dedica su mes na poesia y teatro y semper e ta un amante grandi di arte. E tin un aprecio grandi pa tur ramo di arte: tur clase di musica y muy en particular jazz ,arte visual moderno, poesia, baile moderno y teatro inovativo. Tambe semper e ta apoya nos artistanan arubiano pa saca na album di musica, pa presenta nan obra di teatro y especialmente e generacionnan nobo e ta apoya nan den nan arte y poesia pa sigui expresa y presenta.

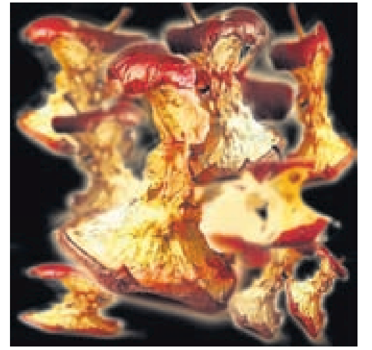

Y awo a bira tempo pa Stanley mes demostra su talento 'scondi' cu durante 10 ana ela elabora su so sinta den su studio na cas dilanti di su computer.

Diferente di nos artistanan renombra a apoya Stanley pa bin dilanti cu su obranan, pasobra manera cu un di e artistanan renombra a bisa: Mi no a wak un trabou di arte digital di tanto nivel ainda, manera esun di Stanley". Stanley ta revela, cu su obranan ta nace for di su experiencianan den bida E sentimientonan cu ta brota for di su paden ta forma e base di su inspiracionnan.
Stanley tin un coleccion enorme di portetnan cu e ta saca regularmente. Y e ta scohe un portret cu ta corespondе cu un sentimiento cu e ke traha cu ne. Y e trabou no ta keda eynan. E ta haci uzo di e technicanan di arte digital pa haci di e portret aki bira un obra artistico.

E tema di e expo aki ta Beyond Words, Inner Outer, cu otro palabra su obranan ta bay mas leu cu palabra y ta pone luz riba e discrepancia serca e ser humano entre 'su paden y e manera cu e ta aparenta den e mundo exterior'.

No perde e ocacion pa admira e excelente arte di Stanley Stanga Heinze, cu ta spectacular y na mes momento subtil. Tambe lo tin oporturtunidad pa ricibi gruponan y oranisacionnan cu ke haya un tour y splicacion riba e obranan di Arte aki.

Danki na Unoca y PBF cu e exposicion aki a bira posibel y danki tambe na CedeAruba, DCA, Web y Setar cu a haci posibel cu skolnan por bishita e exposicion aki. Y tambe nos ta gradici e sponsernan Martijn Trading y Tec pa nan apoyo.

Labor proposal could upend rules for gig workers, companies

The Biden administration published a new proposal Tuesday regarding how workers should be classified, saying that thousands of people have been incorrectly labeled as contractors rather than employees, potentially curtailing access to benefits and protections they rightfully deserve.

The new U.S. Department of Labor regulations would replace a Trump-era rule that lowered the bar for classifying employees as contractors, workers who are not covered by federal minimum wage laws and are not entitled to benefits including health insurance and paid sick days. The reaction in markets for major gig companies was immediate. Shares of of the ride-hailing companies Lyft and Uber tumbled about 8%, although both companies dismissed the significance of the new proposal and its potential to affect their business.

Misclassifying workers as independent contractors denies those workers protections under federal labor standards, promotes wage theft, allows certain employers to gain an unfair advantage over businesses, and hurts the economy, the Labor Department.
"While independent contractors have an important role in our economy, we have seen in many cases that employers misclassify their employees as independent contractors, particularly among our nation's most vulnerable workers," said Secretary of Labor Marty Walsh in a prepared statement.

The Labor Department argued that the Trump administration rule did not comport with the 1938 Fair Labor Standards Act and decades of case law applying it. One key change that could affect app-based companies is a requirement that employers consider whether the employee's work is an integral part of their business. The Trump-era rule had narrowed that criteria to whether the work is part of an integrated unit of production, and gave more weight to two other considerations: the degree of control by the employer over the worker and the worker's opportunity make a profit profit or loss.

The new rule directs employers to consider the totality of five criteria traditionally used to determine whether a worker is an independent contractor, without predetermining whether one outweighs the other. Those criteria also include the degree of permanence of the relationship between a worker and the employer and the amount of skill required for the job.
Wedbush analyst Dan Ives said the proposal would constitute a major change for workers and employers from previous years.

"A classification to employees would essentially throw the business model upside down and cause some major structural changes if this holds," Ives wrote.

Prosecutors drop charges against Adnan Syed in 'Serial' case

ANNAPOLIS, Md. (AP) — Prosecutors dropped charges against Adnan Syed on Tuesday in the 1999 killing of Hae Min Lee, a case that was chronicled in the first season of the hit podcast "Serial."

Emily Witty, a spokeswoman for the city of Baltimore's state's attorney's office, said in an email that her office had dropped its case against Syed and would release further details about its decision later Tuesday.

Laura Nirider, a co-director of the Center on Wrongful Convictions at Northwestern Pritzker School of Law who accompanied Syed when he walked out of prison last month, earlier tweeted: "Breaking news: After the latest round of DNA testing generated results that, like previous rounds of testing, excluded Adnan Syed, he has now been formally exonerated!"

A Baltimore judge last month overturned Syed's murder conviction and ordered him released from prison, where the 41-year-old had spent more than two decades. Circuit Judge Melissa Phinn also gave prosecutors 30 days in which to decide whether to retry Syed or drop the charges.

Phinn ruled that the state had violated its legal obligation to share evidence that could have bolstered Syed's defense. After his release, Syed was placed on home detention with GPS location monitoring.

Lee's family had asked Maryland's intermediate appellate court to halt the case. Attorney Steve Kelly said Lee's family is not challenging Syed's release, but instead wanted the judge to hold another hearing that the family can attend in-person and address the court — Lee's brother Young Lee appeared via videoconference on short notice during the previous hearing. The attorney did not have an immediate comment Tuesday. Last week, state Attorney General Brian Frosh's office filed court papers supporting the appeal by Lee's family.

Syed has maintained his innocence for decades and captured the attention of millions in 2014 when the debut season of "Serial" focused on the case and raised doubts about some of the evidence, including cellphone tower data.

Prosecutors have previously said that a reinvestigation of the case revealed evidence regarding the possible involvement of two alternate suspects. The two suspects may have been involved individually or together, the state's attorney's office said.

One of the suspects had threatened Lee, saying "he would make her (Ms. Lee) disappear. He would kill her," according to a court filing.

The suspects were known persons at the time of the original investigation and were not properly ruled out nor disclosed to the defense, prosecutors said.

Prosecutors also said new information revealed that one of the suspects was convicted of attacking a woman in her vehicle, and that one of the suspects was convicted of engaging in serial rape and sexual assault.

Prosecutors also noted unreliable cellphone data used during Syed's court case to corroborate his whereabouts on the day of the crime. The notice on the records specifically advised that the billing locations for incoming calls "would not be considered reliable information for location."

Syed served more than 20 years in prison for the strangling of Lee, who was 18 at the time. Her body was found weeks later buried in a Baltimore park.

More than a decade later, the popular "Serial" podcast revealed little-known evidence and attracted millions of listeners, shattering podcast-streaming and downloading records.

NASA asteroid strike results in big nudge

CAPE CANAVERAL, Fla. (AP) — A spacecraft that plowed into a small, harmless asteroid millions of miles away succeeded in shifting its orbit, NASA said Tuesday in announcing the results of its save-the-world test.

The space agency attempted the first test of its kind two weeks ago to see if in the future a killer rock could be nudged out of Earth's way.

The Dart spacecraft carved a crater into the asteroid Dimorphos on Sept. 26, hurling debris out into space and creating a cometlike trail of dust and rubble stretching several thousand miles (kilometers).

It took days of telescope observations to determine how much the impact altered the path of the 525-foot (160-meter) asteroid around its companion, a much bigger space rock.

Before the impact, the moonlet took 11 hours and 55 minutes to circle its parent asteroid. Scientists had hoped to shave off 10 minutes but NASA Administrator Bill Nelson said the impact altered the asteroid's orbit by about 32 minutes.

"This mission shows that NASA is trying to be ready for whatever the universe throws at us," Nelson said during a briefing at NASA headquarters in Washington.

Neither asteroid posed a threat to Earth — and still don't as they continue their journey around the sun. That's why scientists picked the pair for the world's first attempt to alter the position of a celestial body.

Launched last year, the vending machine-size Dart — short for Double Asteroid Redirection Test — was destroyed when it slammed into the asteroid 7 million miles (11 million kilometers) away at 14,000 mph (22,500 kph).

The test cost $325 million.

Carbon monoxide leak at day care center injures kids, staff

ALLENTOWN, Pa. (AP) — A carbon monoxide leak at a Pennsylvania day care center sent nearly 30 children and four adults to the hospital early Tuesday, but none of the injuries were considered serious, authorities said.

Emergency responders went to the Happy Smiles Learning Center in Allentown, Pennsylvania, on reports of an unconscious child. The building was evacuated after air quality detectors worn by firefighters were triggered.

The leak was caused by a malfunctioning heating unit and a blocked venting system, investigators said. They noted the building did not have carbon monoxide detectors, which will be required for child care facilities under a new state law that has not fully taken effect yet.

The sites are in the midst of a 30-day compliance period to have the detectors installed, and Happy Smiles owner Jesenia Gautreaux said the work will be done at her business.

A staffer called Gautreaux at home to tell her a child had collapsed, she told The Morning Call newspaper of Allentown. She arrived at the center within minutes and saw the boy in an ambulance, she said. He looked ill, she said, but gave her a thumbs-up.

"He was a little dizzy and out of it," she told the newspaper, adding that other children cried as they evacuated. "I believe they were scared and worried about their friends."

The children and adults were evaluated at hospitals, and all were listed as stable, authorities said. Eight staffers were in the building when the leak occurred, but it wasn't immediately clear how many children there.

The center, which usually cares for about 40 kids each day, will be closed while repairs are made, Gautreaux said. She hopes to reopen soon.

The center's last state inspection was conducted late last year, and state records show the only problem found was a door that remained locked when the fire alarm sounded. That was soon repaired, and no sanctions were issued.

Florida shrimpers race to get battered fleet back to sea

FORT MYERS BEACH, Fla. (AP) — The seafood industry in southwest Florida is racing against time and the elements to save what's left of a major shrimping fleet — and a lifestyle — that was battered by Hurricane Ian.

The storm's ferocious wind and powerful surge hurled a couple dozen shrimp boats atop wharves and homes along the harbor on Estero Island. Jesse Clapham, who oversees a dozen trawlers for a large seafood company at Fort Myers Beach, is trying to get boats back to sea as quickly as possible — before their engines, winches and pulleys seize up from being out of the water.

One of two shrimpers that didn't sink or get tossed onto land went out Sunday, but the victory was small compared with the task ahead.

"There's 300 people who work for us and all of them are out of a job right now. I'm sure they'd rather just mow all this stuff down and build a giant condo here, but we're not going to give up," said Clapham, who manages the fishing fleet at Erickson and Jensen Seafood, which he said handles $10 million in shrimp annually.

The company's fractured wharves, flooded office and processing house are located on Main Street beside another large seafood company, Trico Shrimp Co. There, a crane lifted the outrigger of grounded shrimper Aces & Eights — the first step toward getting it back in the water. Across the yard, the massive Kayden Nicole and Renee Lynn sat side-by-side in the parking lot, stern to bow.

Shrimping is the largest piece of Florida's seafood industry, with a value of almost $52 million in 2016, state statistics show. Gulf of Mexico shrimp from Fort Myers has been shipped all over the United States for generations.

Now, it's a matter of when the fishing can resume and whether there will still be experienced crews to operate the boats when that happens.

Deckhand Michele Bryant didn't just lose a job when the boat where she works was grounded, she lost her home. Shrimping crews are at sea for as long as two months at a time, she said, so members often don't have homes on land.

Richard Brown's situation is just as precarious. A citizen of Guyana who was working on a boat out of Miami when Ian hit southwest Florida, Brown rode out the storm on one of four boats that were lashed together along a harbor seawall.

There's no way to catch shrimp on a boat surrounded by dirt, so Brown is staying busy scraping barnacles off the hull of the Gulf Star. "It's like it's on dry dock," he said — but he's no more sure what to do now than at the height of the storm.

Seafood fleets along the Gulf Coast are used to getting wiped out by hurricanes. Katrina pummeled the industry from Louisiana to Alabama in 2005, and the seafood business in southern Louisiana is still recovering from Hurricane Ida's punch last year. But this part of Florida hasn't seen a storm like Ian in a century, leaving people to wonder what happens next.

Seller exploits gun-buyback loophole with help of 3D printer

ALBANY, N.Y. (AP) — New York's attorney general has changed the rules of a state gun buyback program after a participant exploited the system by using a 3D printer to make firearm parts in bulk that he then turned in for $21,000 in gift cards.

The seller, who identified himself by a pseudonym, said he traveled from West Virginia to a gun buyback Aug. 27 in Utica, New York, to take advantage of a loophole in the program — and to demonstrate that buybacks are futile in an era of printable weapons.

At the buyback, he turned in 60 printed auto sears, small devices that can convert firearms into fully automatic weapons. Under the rules of the buyback, hosted by Attorney General Letitia James' office and city police, that entitled him to $350 for each of the printed parts, including a $100 premium, since they were deemed "ghost guns" lacking serial numbers.

The seller, who declined to provide his real name, said in an email to The Associated Press on Monday that the prospect of making money was enticing, but that the big reason he took part in the buyback was to send a message.

He called the idea of buybacks "ridiculously stupid," adding that "the people running this event are horribly uneducated about guns, gun crime, and the laws surrounding the regulation of guns."

James' office said it responded to the exploited loophole by giving buyback personnel more discretion to determine the value of weapons being handed in, and setting a standard that all 3D-printed guns accepted by the program must be capable of being fired more than once.

The new rules were in place by Sept. 17, when the attorney general's office hosted a gun buyback in the Syracuse suburb of Camillus.

Buybacks are a popular way for government officials to try to get guns off the streets, typically with a promise of no questions asked, and amnesty for someone who turns in an illegal weapon.

Some firearms turned in to those programs are legally owned. Others are relinquished by people who aren't allowed to own weapons or are turning in guns that have been illegally altered.

The rule change by James comes as state and federal officials attempt to deal with the proliferation of ghost guns. President Joe Biden announced in April changes to the definition of a firearm under federal law to include unfinished parts, which would include those made by 3D printers.

The New York attorney general's office has been hosting buybacks since 2013. James has recently warned that ghost guns are fueling a "gun violence epidemic" and sees buybacks as part of the solution, as do police forces in Syracuse and elsewhere.

More missiles, drones strike Ukraine, alarms keep up fear

KYIV, Ukraine (AP) — Russian forces showered Ukraine with more missiles and munition-carrying drones Tuesday after widespread strikes killed at least 19 people in what the U.N. human rights office described as a "particularly shocking" attack that could amount to war crimes.

Air raid warnings extended throughout the country for a second straight morning. Ukrainian officials advised residents to conserve energy and stock up on water after strikes in the capital and 12 other regions the previous day caused widespread power outages and pierced the relative calm that had returned to Kyiv and many other cities far from the war's front lines.

Ukrainian President Volodymyr Zelenskyy addressed the leaders of the Group of Seven industrial powers by videoconference Tuesday. After the meeting, the G-7 leaders said their countries "will stand firmly with Ukraine for as long as it takes."

Russia launched the widespread attacks in retaliation for a weekend explosion that damaged a bridge linking the country to the Crimean Peninsula, which Moscow annexed from Ukraine in 2014. Russian President Vladimir Putin alleged the Ukrainian special services masterminded the Saturday attack on the Kerch Bridge. Russia has has concentrated most of its firepower during the 7 1/2-month war in eastern and southern Ukraine, and Ukrainian officials said the previous day's diffuse strikes on power plants and civilian areas made no "practical military sense."

However, Putin's supporters had urged the Kremlin for weeks to take more drastic steps in Ukraine and actively criticized the Russian military for a series of embarrassing battlefield setbacks. Pro-Kremlin pundits lauded Monday's attack as an appropriate and long-awaited response to Kyiv's recently successful counteroffensives, and many of them argued that Moscow should keep up the intensity in order to win the war.

The bombardment Tuesday struck both power plants and civilian areas, just as Monday's attacks did. One person was killed when 12 missiles slammed into public facilities in the southern city of Zaporizhzhia, setting off a large fire, the State Emergency Service said. A local official said the missiles hit a school, residential buildings and medical facilities.

Energy facilities in the western Lviv and Vinnitsya regions also took hits. Although officials said Ukrainian forces shot down an inbound Russian missile before it reached Kyiv, the capital region experienced rolling power outages as a result of the previous day's deadly strikes.

The governor of the Mykolaiv region, Vitaliy Kim, urged residents to remain in bomb shelters as "there are enough missiles still in the air."

The State Emergency Service said 19 people died and 105 people were wounded in Monday's strikes. At least five of the victims were in Kyiv, Mayor Vitali Klitschko said. More than 300 cities and towns lost power, from the capital to Lviv on the border with Poland.

Beside the usual sirens, a new type of loud alarm that blared automatically from mobile phones jolted Kyiv residents early Tuesday. A text message warning of the possibility of missile strikes accompanied the caustic-sounding alert.

A spokesperson for the office of the U.N. High Commissioner for Human Rights said Tuesday that strikes on "civilian objects," including infrastructure such as power plants, could qualify as a war crime.

Russian Foreign Minister Sergey Lavrov addressed the issue Tuesday, saying Moscow would only resort to that if the Russian state faced imminent destruction. Speaking on state TV, he accused the West of encouraging false speculation about the Kremlin's intentions.

UN flight from rebel-held Yemen capital returns 129 migrants

CAIRO (AP) — The U.N. returned 129 Ethiopian migrants stranded in war-torn Yemen to their homeland Tuesday in its first humanitarian repatriation flight to depart from the rebel-held capital of Sanaa this year.

The United Nations' International Organization for Migration has facilitated the voluntary return of more than 1, 800 mostly East African migrants from Yemen this year. However, all of 2022's previous returnees flew from airports controlled by Yemen's internationally recognized government in the cities of Aden and Marib.

The migration agency said in a news release Tuesday that many of the passengers on the voluntary flight from Sanaa to Adis Ababa were unaccompanied minors and individuals with medical conditions.

Some 43,800 mostly East African migrants are thought to be stranded in Yemen. Virtually all arrived in the war-ravaged country intending to travel north to neighboring Saudi Arabia, although few have completed the journey.

Yemen's ruinous conflict began in 2014 when Iran-backed Houthi rebel forces seized Sanaa. A Saudi Arabia-led coalition including the United Arab Emirates intervened the next year to try to restore the internationally recognized government to power.

In trying to traverse the country, African migrants are regularly caught in the crossfire. They are often killed, detained or forcibly enlisted as fighters by Yemeni's warring factions.

The failure to extend Yemen's nationwide truce Oct. 2 has threatened to reignite the bloody civil war after a six-month cessation of front-line fighting. The regional proxy war between Saudi Arabia and Iran has killed in excess of 150,000 people, according to the Armed Conflict Location & Event Data Project, turning Yemen into one of the world's worst humanitarian crises.

According to the IOM, more than 40,000 migrants landed on Yemen's shores this year so far, a third of them women and children. Those arriving are mostly fleeing enduring conflicts, famine and authoritarian governments that have long gripped several countries across the Horn of Africa, including Somalia and Ethiopia.

Ethiopia has been rocked by conflict since November 2020, following a dispute between the Ethiopian government and the Tigrayan rebel forces over control of northern Tigray.

The majority of Yemen's East African migrants first arrive in Djibouti before being packed into small boats by a network of people smugglers. In recent years, many have drowned trying to make the crossing, with rights groups accusing smugglers of throwing people overboard.

The U.N. agency said it plans to help a further 5,000 stranded migrants in Yemen voluntarily return home to three locations in the coming months.

Germany struggles to find housing for more than 1M refugees

BERLIN (AP) — The German government pledged Tuesday to provide more support to cities and towns struggling to house the more than 1.1 million refugees and migrants who have arrived in the country this year, mostly from war-torn Ukraine but also other countries such as Syria and Afghanistan.

After meeting with state and local officials, Interior Minister Nancy Faeser said while the government already allocated federal real estate for tens of thousands of refugees earlier this year, it would immediately provide additional property for about 4,000 refugees to ease the current housing crisis. Faeser also promised financial support but did not give any concrete figures.

Several cities have recently started putting up tents and turned convention centers into temporary accommodation as regular migrant centers have become overcrowded.

More than 1 million people have entered Germany from Ukraine since Russia attacked the eastern European country on Feb. 24. About a third of them are children and teenagers, and more than 70 percent of the adults are women.

While the interior minister stressed that Germany was ready to welcome more Ukrainians despite the difficult housing situation, she struck a significantly different tone regarding asylum-seekers from other countries, especially those trying to reach Germany via the so-called Balkans migration route.

As of the end of September, 134,908 people had applied for asylum in Germany in 2022. That is around a third more than in the same period last year, according to figures from the Federal Office for Migration and Refugees. However, it's still a far call from 2015-16, when more than 1 million migrants from countries like Syria, Iraq and Afghanistan applied for asylum in Germany.

The figures for asylum applications in 2022 are much lower than the total number of refugees because Ukrainians can enter Germany without a visa and do not need to apply for asylum.

In an effort to keep other migrants from crossing into the country, the interior minister said Germany would extend and increase its border controls to Austria for another six months and also intensify controls to the Czech Republic.

The move comes after Austria and the Czech Republic introduced temporary border controls to Slovakia last month to keep migrants from entering their countries.

Germany, Austria, the Czech Republic and Slovakia all belong to the European Union's visa-free Schengen zone, where residents of member nations typically can cross borders without presenting passports or visas. However, Schengen countries have adopted temporary border controls in the past for various reasons, including to curb illegal migration and to prevent the spread of the coronavirus.

Germany also sharply criticized Serbia — which is an EU candidate country but not a member yet — for its visa-free regime with some non-EU countries. Citizens from India, for example, are increasingly flying to Serbia, where they don't need visas unlike for EU countries, and then trying to cross into wealthier western European countries via the Balkans route.

Thunberg: Coal worse than keeping German nuclear plants on

BERLIN (AP) — Climate activist Greta Thunberg says it would be "a mistake" for Germany to switch off its nuclear power plants if that means the country must burn more planet-heating coal.

The German government is still debating the future of its nuclear plants, long set to be shut down this year, given the specter of a looming energy crisis due to the war in Ukraine. Thunberg, who inspired a youth climate movement with her solo protests outside the Swedish parliament in 2018, told German public broadcaster ARD that it was "a very bad idea to focus on coal when this (nuclear power) is already in place." But she acknowledged in the interview, which will be aired Wednesday, that there was a strong debate over the issue in Germany.

Asked whether it would be better for the planet if Germany keeps its three remaining nuclear plants going, Thunberg responded: "If we have them already running, I feel that it's a mistake to close them down in order to focus on coal."

Pressed by program host Sandra Maischberger on whether she thought the nuclear plants should be closed down as soon as possible after the current energy crunch passes, Thunberg said "it depends. We don't know what will happen after this."

The 19-year-old's comments come as Germany's three-party governing coalition argues over the possibility of suspending the country's nuclear phaseout.

Economy Minister Robert Habeck, a member of the anti-nuclear Green party, has said keeping the reactors running would do little to tackle a gas shortage.

He recently suggested that two of the plants could exceptionally operate until April but opposes running them longer for safety reasons. Habeck has separately approved reactivating several coal and oil-fired power plants to ensure energy supplies following Russia's decision to cut natural gas deliveries to Europe.

Environmental activists warn that Germany risks defaulting on its climate goals by burning more fossil fuels, while conservative lawmakers say the government should use all available means to generate energy given the tense supply situation and high prices.

Thunberg's nuclear comments were welcomed by libertarians and right-wing German politicians who have previously been dismissive or sharply critical of her activism. The teenager, who is currently finishing high school, said Germany's decision to rely on coal plants showed "what happens when you are too addicted to these kinds of fossil fuels."

She slammed plans to invest in new fossil fuel infrastructure and said the focus should instead be on expanding renewable energy. The German government insists that new gas plants must be capable

of using clean hydrogen and that it's boosting wind and solar power production.

Thunberg noted that politicians in some countries, such as Sweden, are averse to suggesting that people should save energy, even though this could lower prices.

"I know that in Germany people are talking about saving energy," she said. "But in Sweden it's completely prohibited to talk about using less energy really, because then people say, 'Oh no, this is communism and so on.' So it's completely insane."

Clubs invited to get FIFA money from $209M World Cup fund

GENEVA (AP) — Soccer clubs around the world were invited by FIFA on Tuesday to apply for money from a fund of $209 million set aside for teams that release players for this year's World Cup in Qatar.

Clubs get paid a daily rate — which FIFA estimates at about $10,000 — for as long as 832 players selected for the 32 rosters are on national team duty ahead of and during the tournament.

The preparation period starts Nov. 14 and the tournament ends on Dec. 18.

The $209 million fund, agreed to by FIFA and the European Club Association in 2015, also rewards clubs who helped develop World Cup players. Each player's share of the fund is distributed among the clubs he played for in the past two years.

FIFA said more than 400 clubs playing in 63 different member countries were paid shares from the $209 million fund allocated from the 2018 World Cup commercial revenues.

The "Club Benefits Program" was created in a 2008 deal for FIFA to recognize the newly launched ECA as a more democratic representative of teams' interests.

European teams typically employ about 75% of the players who go to the World Cup.

FIFA paid $40 million into the fund for players who went to the 2010 World Cup in South Africa, and it was $70 million four years later for the tournament in Brazil.

Clubs are set to get a bigger share from the 2026 World Cup, which will have

about 50% more players in an expanded 48-team tournament.

FIFA's revenue from sponsorship, ticket sales and corporate hospitality is also set to rise sharply for the 2026 edition, which will be hosted by the United States, Canada and Mexico.

A similar payment scheme is run by UEFA for the European Championship, which was worth 200 million euros ($194 million) for the tournament played last year.

Chelsea got the biggest share of 5.1 million euros ($5 million) from the Euro 2020 fund, which also rewarded clubs whose players were called up for qualifying games.

Raiders fall short of finally beating AFC West nemesis

KANSAS CITY, Mo. (AP) — The Las Vegas Raiders were oh-so-close to finally getting the best of the Kansas City Chiefs on Monday night.

Then the replay showed close wasn't good enough.

Frantically trying to rally his team in the final minute, Derek Carr threw a pretty pass down the sideline to Davante Adams, who already had hauled in touchdown catches of 58 and 48 yards. The standout wide receiver made the grab with less than a minute to go, not only giving the Raiders a first down but putting them in field-goal range position.

But almost immediately the call went to a video review, and it clearly showed Adams bobbled the ball as he stepped on the white chalk. The ball went back to the Las Vegas side of the field, and an ensuing fourth-and-1 throw was incomplete.

Final score: Chiefs 30, Raiders 29.

It was the fourth consecutive loss to the Raiders' nemesis, and their ninth in their last 10 meetings. They are 1-4 this

season.

"It sucks, what our record is. We've earned that," said Carr, who fell to 1-8 at Arrowhead Stadium. "I just keep reinforcing: We have a good team. I've been on some teams that aren't as good as this one. We're doing the right things."

They did most of the way Monday night, too.

Josh Jacobs followed a career-best 144 yards rushing and two touchdowns in last week's win over Denver by running for 154 and a score against the Chiefs. Adams made a mockery of almost everybody who covered him. Maxx Crosby kept harassing Patrick Mahomes, and the rest of the Raiders defense held the vastly improved Kansas City ground game in check.

Daniel Carlson was once again perfect on three field-goal tries, running his streak to 38 in a row.

It still wasn't enough to beat Chiefs coach Andy Reid, who improved to 16-3 against the Raiders since arriving in Kansas City, or Mahomes, who is 8-1 in his career against them.

"Congratulate the Chiefs. They made a few more plays than we did," Raiders coach Josh McDaniels said. "I thought our team really battled, played the way we wanted to play, to get in front, play from ahead. Give Andy and his team a lot of credit. They fought back; we knew they would. We thought they would and figured it would be a four-quarter game. They were able to make one more play than we did. So, give them credit. We'll learn a lot from this. We competed hard tonight."

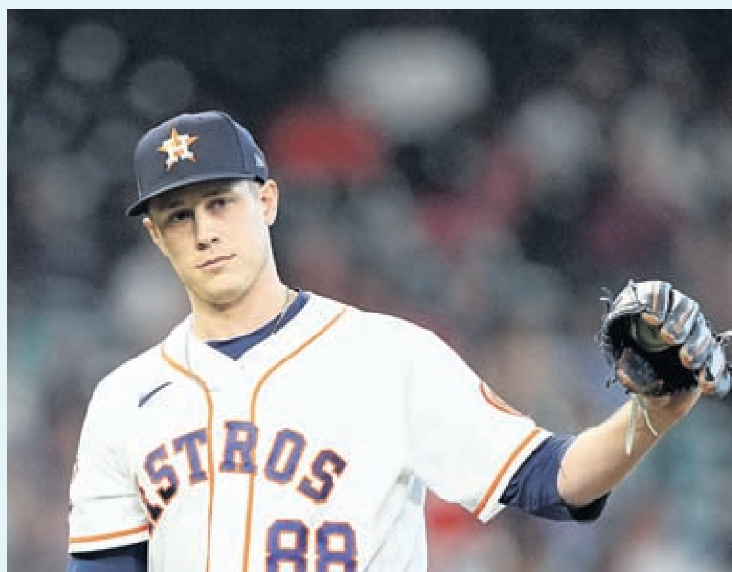

The frustration was still evident as the Raiders left the field, though. Adams roughly pushed what appeared to be a member of the camera crew to the ground as he headed up the Arrowhead Stadium tunnel to the locker room.

The loss kept the Raiders in last place in the AFC West, a game behind Denver and well behind the Chiefs, who are aiming for their seventh consecutive division title. They have next week off before facing the Texans on Oct. 23, the start of a four-game stretch against non-division opponents that could allow them to climb back in the race.

Astros' Phil Maton out for playoffs after punching locker

HOUSTON (AP) — Astros reliever Phil Maton revealed Tuesday that he broke his right pinkie when he punched a locker in frustration after Houston's regular-season finale and will miss the postseason.

Maton had surgery Monday to repair the fractured finger on his pitching hand.

The Astros announced earlier Tuesday that Maton and another veteran reliever, Will Smith, had been left off the roster for the AL Division Series against Seattle.

The 29-year-old Maton gave up two hits, including a single to younger brother Nick Maton, and two runs while recording one out in the eighth inning of Houston's 3-2 win over Philadelphia last Wednesday.

"I was upset with how my outing went, and it's kind of shortsighted and ultimately selfish and it's one of those things that I hope doesn't affect our team moving forward," Maton said Tuesday.

Smith, who was acquired from the Braves at the trade deadline, had a 3.27 ERA in 24 appearances for Houston this season. Maton had a 3.84 ERA in 67 games.

The Astros put rookie right-hander Hunter Brown on an ALDS roster with 12 pitchers and carried an extra position player — rookie infielder David Hensley.

The rest of Houston's pitchers are Justin Verlander, Framber Valdez, Lance McCullers Jr., Luis Garcia, Jose Urquidy, Cristian Javier, Ryne Stanek, Ryan Pressly, Bryan Abreu, Rafael Montero and Hector Neris.

Brown, Hensley, Montero and Neris are making their playoff debuts as are rookie shortstop Jeremy Pena, infielder Mauricio Dubon and utility player Trey Mancini, a six-year veteran acquired this summer from Baltimore.

Houston will carry two catchers, eight infielders and four outfielders against Seattle.

The Mariners went with the same roster they used for the wild-card series. They will carry 12 pitchers, three catchers, five infielders, four outfielders and utility players Adam Frazier and Dylan Moore.

Their pitching staff for this series includes Logan Gilbert, Luis Castillo, Diego Castillo, Matthew Boyd, Matt Festa, Matt Brash, George Kirby, Andres Munoz, Penn Murfee, Robbie Ray, Paul Sewald and Erik Swanson.

Durant, Irving, Nets seek redemption after messy 2021-22

NEW YORK (AP) — Kevin Durant, Kyrie Irving and Ben Simmons supply the talent. Embarrassment provides the motivation.

The Brooklyn Nets know they made a monumental mess of the 2021-22 season, turning a championship contender into a first-round flop. Durant was so discouraged he asked to be traded, Irving so unreliable he didn't get a contract beyond this season.

They're back together now, so don't count out Brooklyn. Especially because the fuel Durant describes may be more powerful than potential.

"A year of us looking in the mirror, like, we (messed) up as a team and that only makes you better," Durant said. "So, I'm banking on that. I've got faith in that."

Perhaps that's why Durant ultimately dropped his request to be dealt and agreed to move forward in Brooklyn, where he is about to start the four-year extension he signed last summer. Or maybe it's simply because he knew the Nets were never going to find a trade acceptable to them, so he needed to accept that he was staying.

That means the Nets still have a roster that can chase a championship. Simmons is finally set to play again after sitting out all last season, first in Philadelphia because of mental health reasons, then in Brooklyn — after being acquired in the swap for James Harden — because of a herniated disk in his back that required surgery.

He provides the defensive expertise the Nets have so clearly lacked. It may take time on the other end of the floor — Simmons committed six turnovers in 25 minutes of a preseason game against Miami. But even without shooting much he could be an ideal playmaker flanked by the outside shooting of Durant, who averaged a franchise-record 29.9 points last season, and 3-point specialists Joe Harris and Seth Curry.

Then there's Irving, who should be on the floor much more after playing only 29 games last season. He was unavailable for almost all Brooklyn's home games because he isn't vaccinated against COVID-19, as was mandated in New York City. The mandate has since been lifted.

The Nets then opted not to offer him the four-year contract for which he was eligible, leaving open the possibility that this could be Irving's final season in Brooklyn. If so, he wants it to be nothing like 2021-22.

"I don't want to have any doubts, or any regrets," Irving said.

Maybe the Nets won't. If healthy, there's no reason they shouldn't surpass the 44 wins and No. 7 seed they settled for last season, though it's unclear if they can be as good as the Boston team that swept them, or other Eastern Conference contenders such as Milwaukee, Miami and Philadelphia.

Irving, perhaps in a nod to the Nets' unpredictability, won't make any forecasts.

"Just going to let our actions lead," he said. "We've talked enough."

World Cup worry for Argentina as Di María exits Juve game

HAIFA, Israel (AP) — Argentina has another injury concern ahead of the World Cup after Ángel Di María exited Juventus' Champions League game at Maccabi Haifa on Tuesday.

Di María was running for a ball in the first half when he pulled up grasping the back of his right thigh and wincing in pain. Juventus did not immediately provide details of Di María's status.

It comes days after fellow Argentina international Paulo Dybala was injured while playing for Roma.

Lionel Messi has a slight calf injury and was unavailable for Paris Saint-Germain's game against Benfica in the Champions League on Tuesday.

Argentina, one of the favorites for the tournament in Qatar, opens against Saudi Arabia on Nov. 22 and also faces Mexico and Poland in Group C.

Di María provided all three assists when Juventus beat Haifa 3-1 last week.
